
WELCOME TO AMBREY INTELLIGENCE

Ambrey are the market leaders across the full range of maritime security services - a full 360° approach.

We are an award-winning UK company, protecting more ships than any other company with over 17,000 successfully completed armed transits, with the largest global support footprint and number of maritime security personnel across the globe.

We own an extensive fleet of our own vessels including security escort vessels, safety boats and vessel-based armouries.

We maintain a fully functioning response centre to support our clients whatever and wherever their challenge. This is linked to our innovative insurance broking services.

MRI PLATFORM (MARINE RISK INTELLIGENCE)

Ambrey is at the forefront of global marine risk forecasting.

Our scale allows us to deliver where others cannot - the MRI allows you to see what others can't.

The MRI Platform is a single, secure portal, driven by market-leading analytics software, proprietary data and integrated asset-tracking.

Test and adjust policies in real-time to promote a best-in-class security function across your organisation.

Exploit our authoritative platform to safeguard vessels, crew and reputation – whenever & wherever you operate.

AMBREY 

Uniquely in the maritime sector Ambrey delivers a complete suite of services to cater for clients' maritime and marine risk.

- We Identify risk - We Qualify risk - We Forecast risk
- We provide solutions to Mitigate, Accept or Transfer risk
- We Prepare, Manage and Respond to risk

This is achieved through Ambrey's 360° service offering of:

- Intelligence to identify, qualify and forecast your risk through the Maritime Risk Intelligence (MRI) platform and our experienced analysts
- Insurance brokering of Special Risks to transfer your risk
- Protective Security and advisory Risk services to mitigate your risk afloat or ashore
- Shipyards to assume risk through our high-quality vessels and Offshore's security and safety vessel services
- Crisis response to prepare, manage and respond to risk before it occurs or in the event that it does strike

A stylized map of the Gulf of Guinea region, showing the coastline of West Africa and the surrounding waters. The map is overlaid with a grid of latitude and longitude lines. Key locations like "Warri" and "Gulf of Guinea" are labeled. The map is divided into two main sections by a diagonal line, with the left side being dark blue and the right side being a lighter blue with a grid pattern.
