

5th November 2024

Ambrey Partners with Pole Star Global to Deliver Advanced Ship Security Alert Services and Covert Tracking Solutions.

Ambrey, a leader in maritime risk management and intelligence is thrilled to announce a strategic partnership with Pole Star Global, a pioneer in maritime technology and SOLAS-compliant Ship Security Alert Services.

This collaboration integrates Ambrey's Security Events service into Pole Star's Podium platform, allowing mariners to stay informed about the latest security threats. These services are seamlessly incorporated into Podium's Ship Security and Tracking modules, enhancing the platform's comprehensive suite of features.

The partnership creates a fully responsive Ship Security Alert Service (SSAS) and advanced covert tracking capabilities for managers and operators, strengthening the security posture of shipowners and their crews. By combining Ambrey's operational expertise with Pole Star's innovative technology, we safeguard both vessels and personnel.

This unified security ecosystem allows Podium subscribers access to Ambrey's global operations and intelligence while Ambrey customers benefit from Pole Star's industry-leading SSAS and tracking technology, as well as access to our FleetWeather routing and forecasting services.

Ambrey's Managing Director of Analytics & Risk, [Joshua Hutchinson](#), confirmed, "This partnership with Pole Star represents a significant leap forward in the maritime sector. Together, we are committed to crafting enhanced solutions that address the evolving challenges faced by the maritime community – elevating industry standards for the seafarer and shipping".

"We're excited to announce our partnership with Ambrey, which brings a powerful new dimension to maritime security," said [Ross Martin](#), Managing Director - Shipping & Offshore at [Pole Star Global](#). "With real-time coordination between Pole Star's 24/7 Support, our FleetWeather team, and Ambrey's Global Operations Center, we collectively provide full support to any vessel in any high-risk situation, anywhere. Together, we're delivering a more robust, all-encompassing solution that enhances operational confidence and provides peace of mind to our clients worldwide."

The partnership is set to launch services in Q4 2024, with ongoing further enhancements to provide customers with the most advanced maritime security solutions available globally.
